10 Ways Professional Lines Could Be Facing Post-Pandemic Risks

# HIGH IMPACT

# **CYBER AND THE BOARD •**

Cyber attacks are on the rise, with more than 300,000 thousand new pieces of malware created daily. Boards of directors should have an active role in aligning their organizations' objectives to their cyber risk response.

### **D&O RISKS FOR EXTREME WEATHER •**

LOW FREQUENCY Directors and officers could
be held liable if they fail to
prepare for severe weather, much
like we saw when historic Winter
Storm Uri left much of Texas
without heat or power for a week.

## **SOCIAL RESPONSIBILITY •**

Businesses are committing
to environmental and social
governance (ESG) more than
ever. But such commitment
also introduces more risk, as
consumers demand higher levels of
accountability and corporate responsibility.
